BUILDING SAFETY AND PROTECTION SYSTEMS

REMOVABLE BOLLARD

Lesa Removable Bollards have a separate cast in ground mount that doubles as a locking device to the bollard. The hinged lid folds down flush to ensure a safe and smooth transition when the bollard is removed. Available in 125mm and 150mm diameters.

BOLT DOWN BOLLARD

Lesa Bolt Down Bollards are available in standard 1200mm lengths or can be custom made to order. Other options are square or 8 hole round plate flanges. Sizes from 80mm to 600mm diameters in all finishes can be supplied.

CAST IN BOLLARDS

Lesa Cast In Bollards are available in standard 1700mm lengths or can be custom made to order. Cast In Bollards are supplied complete with welded anchor bars and have the option of top caps. Sizes from 80mm to 600mm diameter in all finishes can be supplied.

FOLD DOWN BOLLARDS

Image Fold Down Bollards have been designed for applications such as vehicle access, control and parking space protection. In the lay flat position it stands only 80mm high with a broad flat face of 150mm wide for greater visibility. The flat face allows optional signage or reflective tape to be attached. Available as surface mounted or can be used with an in ground kit. Fold down bollards are supplied with all necessary fixings and padlock.

POST AND CHAIN BOLLARDS

All Bollards are available with optional chain rings or brackets for attaching wire rope or chain.

DOWN PIPE PROTECTORS

Lesas Down Pipe Protectors are available in standard or custom sizes and are complete with pre-punched fixing holes. All are available in hot dip galvanised or powder coated finish in colour of choice.

POST & RAIL SYSTEM

The Modular Barricade System from Image is ideal for use in car parks, factories, shopping centres, etc, or anywhere where vehicles and pedestrians need segregating. The galvanised or powder coated surface mounted posts are 900mm high, and the rails are available in 2, 3, or 6 metre lengths. The post and rail system can be installed on sloping ground and is supplied with all necessary fixings to install.

Most products are available in the following finishes

Mild Steel, Cast Iron, Stainless Steel, Powder Coated, Painted and Galvanised Finish

Other custom made versions are available on request
